Brgy. Labogon, Mandaue City,  
Cebu, Philippines

## About Me

I am a MERN + NextJS developer. I create custom websites and web applications to help businesses establish their online presence. My client-centric approach emphasizes the importance of delivering high-quality results for every project I have. With a strong initiative for continuous learning and adaptability, I welcome opportunities for growth and am receptive to feedback and suggestions to achieve exceptional outcomes.

## About Me

Enthusiastic and self-motivated with expertise in Canva and hands-on experience managing Facebook Marketplace and pages. Excited to utilize my self-taught social media and content creation skills to streamline email organization and enhance team communication. I am passionate about applying my e-commerce proficiency from Facebook Marketplace to Shopify for precise pricing, inventory management, and improved product visibility.
